Subject: EPA Conflict Prevention and Resolution Center

Good Morning.

Julie Dalsoglio has relayed to Rob and me that there has been some community interest expressed at both CFAC and Smurfit Stone about a superfund-related community visioning process. Apparently there have been some discussions about funding such an effort through the EPA Conflict Prevention and Resolution Center. I have been trying to learn more about how that might work from Terry Fenton, who works for the CPRC. She had some questions about whether their contract could be used for sites that aren't listed on the NPL, and asked to talk to both of you about the status of the sites. I just wanted to let you know that she may be calling and give you a bit of the context.

We are really just in the preliminary stages of considering the communities' needs and the appropriateness of such an effort, so much more information needs to be gathered on our end. I'll keep you posted as we learn more.

Please let me know if you have any questions or would like more information.

Thanks!
Cynthia
